*Curriculum Vitae - Report of the Jury*

---

Jean-Marie André

### *Report of the Jury (April 6, 1991)*

Considering that the Professor Jean-Marie ANDRE acquired an international reputation in the field of the electronic structure of polymers by means of the methods of quantum chemistry and that thus, it contributed to the radiation of science;

considering the international impact of its work materialized since its thesis of doctorate by a great number of publications in international periodicals of very high level;

also considering its constant worry to integrate various scientific disciplines thus showing the width of the culture as of its ideas, which are guarantors of the development of science;

considering that its work presents at the same time a character fundamental and applied giving place to developments in the field of physical chemistry like industrial techniques;

decide to award the Prize Francqui 1991 to Mr Jean-Marie ANDRE, Professor at the Facultés Universitaires Notre-Dame de la Paix-Namur.
